DOW JONES ENERGY

OPIS Biofuels Daily Report

Clearer insight for every biofuels market decision

Track prices, trade activity and policy developments with trusted daily assessments and market intelligence. Follow markets from ethanol and biodiesel to renewable diesel, sustainable aviation fuel (SAF) and clean fuel credits — with the OPIS Biofuels Weekly Report included as a complimentary supplement.

Daily pricing across key biofuels markets

Access daily spot price assessments for U.S. ethanol and SME biodiesel, plus renewable diesel and SAF pricing in key West Coast markets. Follow RINs across four vintage years and RIN RVO prices.

Track policy and clean fuel program developments

Follow regulatory developments shaping clean fuel markets with trusted market intelligence.

Follow market-moving news and trade activity

Get real-time email alerts and a daily overview of pricing, news, commentary and expert analysis. The OPIS Biofuels Deal Log adds transparency into confirmed RIN and clean fuel credit transactions.

OPIS Biofuels Daily Report value

Make informed trading and procurement decisions

Use trusted daily assessments to follow market movements and inform market analysis, trading and procurement decisions.

Broaden your market view with the weekly supplement

The complimentary OPIS Biofuels Weekly Report adds broader insight into renewable diesel, SAF, clean fuel credit markets and regulatory developments. It also includes Deal Log trade summaries and a calendar of regulatory meetings, compliance deadlines and industry events.
